Bachelor of Engineering in *Instrumentation and Control Engineering* August 2003 - May 2007

Netaji Subhas Institute of Technology, **Delhi University**, New Delhi, India

## RESEARCH EXPERIENCE

---

Graduate Student Research Assistant to Professor John E. Laird August 2010 - Present

**University of Michigan**, Ann Arbor

*Learning with Human-Agent Interaction*

Designed, implemented, and analyzed an interaction model for agents instantiated in Soar cognitive architecture that allows limited mixed-initiative interaction with an instructor. The agents can derived generally applicable procedural knowledge from a history of interactions (available in episodic/semantic memory of the agent) using situated explanation.

Graduate Student Research Assistant to Professor John E. Laird May 2009 - August 2010

**University of Michigan**, Ann Arbor

*Reinforcement Learning in Soar Cognitive Architecture*

Designed, implemented and analyzed reinforcement learning agents for Infinite Mario. Implemented modular reinforcement learning for Soar cognitive architecture that allows the agent to learn multiple MDPs.

Research Assistant to Professor Niladri Chatterjee May 2007 - May 2007

**Indian Institute of Technology**, New Delhi, India

*Sense Disambiguation, Word-Space Models for Language*

Designed, implemented and analyzed algorithm for sense disambiguation of homonyms using K-Means clustering and Random Indexing.

Undergraduate Thesis with Professor Niladri Chatterjee December 2006 - May 2007

**Indian Institute of Technology**, New Delhi, India

*Single Document Summarization, Word-Space Models for Language*

Designed, implemented and analyzed algorithm for single-document summarization using PageRank and Random Indexing.
